

Q&A

So why reform the association?

Simply put: to better serve, protect, and address the needs of its residents. There are several issues facing our neighborhood that would be better addressed through the power of a community than individuals. One of the more pressing needs, along with increased safety, is creating a central voice around the annexation discussions that could potentially affect each resident of Sexton Woods.

What is the purpose of this organization?

Four central themes: To Enhance, Inform, Protect, & Connect. Please read the initial aims & objectives to learn more.

What was the history of our neighborhood?

Former and acting president, Rex Simms, has prepared a briefly history of the Association and its accomplishments over the years. Please read history to learn more.

When is the next meeting?

Tuesday, December 13th 2011 at 7:30PM at Keswick Park Community Building

Why is it important that I attend the next meeting?

We need your input, influence, and knowledge as this meeting will largely determine the structure, focus, and trajectory moving forward. We will also have State Rep. Mike Jacobs and Mayor Eric Clarkson in attendance to present and answer questions regarding the annexation discussions.
